### **RAZVOJ VIZUELNE PERCEPCIJE U PRVOJ GODINI ŽIVOTA DETETA**

Predmet ovog rada je prikaz činjenica do kojih se došlo u proučavanjima percepcije dece u prvoj godini. Namera autora bila je da sažeto i kritički prikaže nalaze nekih od malobrojnih istraživanja koja su se bavila razvojnim aspektima vizuelne percepcije u prvoj godini. U prvom delu rada prikazane su dominantne teorijske postavke koje se odnose na percepciju, uz to su izloženi stavovi Pijažea i Vigotskog prema problemu razvoja opažanja. U drugom delu opisani su metodološki postupci kojima se proučava percepcija kod dece. Treći deo rada predstavlja prikaz istraživanja o ključnim aspektima dečijeg opažanja, dok se u četvrtom delu diskutuju izneti podaci, preispituje se način na koji se do njih došlo te ukazuje na sadržaj budućih istraživanja.

**Ključne reči:** razvoj, opažanje prostora, opažanje boja, opažanje lica, sadejstvo čula u opažanju

### **VISUAL PERCEPTION DEVELOPMENT OF THE CHILDREN IN THE FIRST YEAR OF LIFE**

The subject of this paper is to review the facts which were revealed in the studies of children's perception in the first year of life. The author's goal was to review briefly and critically some of the findings of the sparse researches which examined developmental aspects of the perception in the first year of life. The dominant theoretical aspects about perception and Piaget's and Vygotsky's views on the development of perception are given in the first part of the paper. Methodological procedures for perception exploration within children are reviewed in the second part. The researches about key aspects of children's perception are reviewed in the third part of this paper. In the fourth part of the paper we discuss previously brought out data, reexamine methods by which they were collected and we point to the future researches contents.

**Keywords:** development, space perception, color perception, face perception, senses synergy in perception
